

# Seesaw

Seesaw is a fantastic app that we use to communicate with parents, share important information from the school and your child's learning!

- SeeSaw provides a safe and creative way for your child and teacher to document student learning
- Each student has their own journal to which photos, videos and examples of work will be uploaded to
- Teachers will be able to check and reply to your message during their non-teaching times or before or after school
- If you have an urgent message or question during class time, please contact the school's front office staff on 99236600
- There is no expectation for our teachers to be responding to messages outside of business hours or on weekends.
